It will be sent back to the committee for hearing but as the sheet is passed out indicate it makes some changes with Social Security, the method they handle Social Security within the department. It also establishes procedures so interest can be earned from some of those funds while they are being accumulated. It permits the billing division to develop, produce and sell some of the information and promotional material concerning the capitol, within the capitol here. Essentially some of these things that reflects what they are doing now but clarifies the authorization for it. It consolidates several fund accounts into a single fund, reducing the bookkeeping and accounting procedures of many funds. Then it also carries a provision which will clarify the method in which employees of the state are reimbursed for expenses, travel expenses and other expenses that are appropriate by law to be reimbursed. That is the purpose of the bill, Mr. President.
